

800

PlusTM

MULTI-FUNCTIONAL ADJUVANT

PENETRANT • ACIDIFER • SURFACTANT • DROPLET MANAGEMENT

PROPRIETARY BLEND:

| | |
|---|-------------|
| Phosphatidylcholine, Propionic Acid and Alkyl Polyoxyethylene Ether | 80% |
| Inert Ingredients | 20% |
| TOTAL | 100% |

All ingredients are exempt from tolerance requirement under 40 CFR 180.

**KEEP OUT OF REACH OF CHILDREN
DANGER**

Hazards to Humans and Domestic Animals. Harmful or fatal if swallowed. Corrosive, causes eye and skin damage. Do not get in eyes, on skin or on clothing. Wear goggles or face shield when handling. Wear coveralls over long-sleeved shirt, long pants, socks, chemical-resistant footwear and gloves.

800 Plus™

MULTI-FUNCTIONAL ADJUVANT

PENETRANT • ACIDIFER • SURFACTANT • DROPLET MANAGEMENT

PROPRIETARY BLEND:

Phosphatidylcholine, Propionic Acid and Alkyl Polyoxyethylene Ether 80%
Inert Ingredients 20%

All ingredients are exempt from tolerance requirement under 40 CFR 180.

FIRST AID

Call a poison control center or doctor immediately for treatment advice.

If Swallowed: Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses if present, after the first 5 minutes, then continue rinsing eye. Have the product container with you when calling a poison control center or doctor, or going for treatment.

If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth if possible.

GENERAL INFORMATION

CNI 800 Plus™ is a multi-functional adjuvant designed to lower pH of spray solutions, thus preventing alkaline hydrolysis of pesticides sensitive to high pH. **CNI 800 Plus™** has low foam surfactant system which enhances the activity and performance of herbicides, insecticides, fungicides, foliar nutrients and plant growth regulators.

CNI 800 Plus™ provides more uniform coverage by decreasing surface tension of spray solutions, thus helping in penetration. Application may be by ground or air with pesticides recommending a nonionic surfactant to all crops, noncrop, turf, and ornamentals.

CNI 800 Plus™ will reduce drift hazard by reducing spray droplet fines, for most water soluble and dispersible pesticides.

DIRECTIONS FOR USE

Some pesticides have stated adjuvant use rates. The pesticide manufacturer's label should be consulted regarding specific adjuvant use rates.

Always agitate tank-mix solutions thoroughly when adding the suggested use rate as listed. Continue agitation while adding the recommended amount of pesticide, continuing agitation prior to spray application.

CLEAN UP

Rinse spray tank after each use and flush thoroughly. Do not contaminate water sources by runoff from cleaning of equipment wash-waters or spray waste. Dispose of container in proper manner, do not reuse.

APPLICATION RATES

Highly alkaline water (pH 8 or higher): 8 to 16 oz. per 100 gallons of spray solution.

Mildly alkaline/acid water (pH 6.5 to 8): 4 to 8 oz. per 100 gallons of spray solution.

General Use:

Herbicides, Defoliants: 1 to 4 pints per 100 gallons of spray solution.

Insecticides, Fungicides, and Fertilizers: 1/2 to 2 pints per 100 gallons of spray solution.

*Turf, Ornamental, Industrial: 1 to 4 pints per 100 gallons of spray solution. (1 to 3 oz. per 5 gallons).

Drift Retardant: 1 to 2 quarts per 100 gallons of spray solution.

NOTE: *Before treating a large area, test a small area and observe prior to full-scale application.*

STORAGE AND DISPOSAL

Store in cool dry place. Product will become thicker at cold temperatures, but will not affect formulation or performance. Warm before use if frozen. Triple rinse container and dispose of according to state or local regulations, or offer container for recycling or reconditioning, or puncture and dispose of in a sanitary landfill.

NOTICE TO USERS: Seller warrants the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, expressed or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use.
